6.	Forward, MARCH	<ol style="list-style-type: none"> Steps off on left foot. Does not anticipate the command of execution. 		
7.	Close, MARCH & Forward, MARCH (while marching)	<ol style="list-style-type: none"> MARCH is given on the right foot. The 2nd element takes up the half step (beginning with the left foot) following the command of execution. The 1st element obtains close interval by pivoting 45 degrees to the right on the ball of the left foot, taking one 24-inch step (with coordinated armswing) toward the fourth element, and then pivoting 45 degrees back to the left on the ball of the right foot. 1st element takes up the half step. On the command Forward, MARCH, both elements resume a 24-inch step. 		
8.	Extend, MARCH & Forward, MARCH (while marching)	<ol style="list-style-type: none"> The same procedures and steps used to obtain close interval are used except the command is given on the left foot and the pivots are made on the right foot. 		
9.	Change Step, MARCH	<ol style="list-style-type: none"> Called on the right foot. On MARCH, cadets take one more 24-inch step with left foot. In one count, cadets place ball of right foot alongside the heel of the left foot, pin their arms, and shift the weight of the body to the right foot. Cadets then step off with the left foot in a full, 24-inch step, resuming coordinated armswing. 		
10.	Column Left, MARCH & Forward MARCH	<ol style="list-style-type: none"> In marching, turns 90-degrees to the left via 1 or more pivots, depending on place in flight. Takes up half step at correct time and maintains until Forward March is called. Maintains proper dress, cover, interval, and distance. Resumes full 24-inch steps after Forward, MARCH.
